

Aptos Soccer Club Rain Policy

Coaches,

The rules for rain are the following:

1. Go to your scheduled game. The ref will call the game only if it is too dangerous to play. It is up to the ref, not you sitting in the comfort of your home. Soccer is played in the rain occasionally. If the field is muddy, over slippery, etc. it will be called. A wet field does not mean it's dangerous.
2. If your game is scheduled for the Aptos Polo Fields, it is not up to us to call a game, it's up to the County Parks and Rec. Department. Please call their hotline # at 454-7906 and the recording will let you know if any county park is closed or not.
3. U6's-go to your scheduled game and evaluate the field with the other coach. Remember that kids like playing in the rain, so if it's not dangerous, go for it. It'll be a game that they remember for a long time. (remember when we were kids?).
